

Usage of Online Databases and LibGuides 2012-2013 and 2013-2014

Database Statistics

We have seen a slight increase in database usage from 2011-2012 to 2012-2013. Total database sessions (hits) recorded 2011-2012 numbered 50616. In 2012-2013, 51500 total databases sessions were counted for the listed databases (reporting as of 7/11/13). This represents a 1.7% increase in database usage this year as compared with last year. It should be noted that the statics below represent only a selection of major databases that are tracked on a monthly and annual basis. In the future, it may be possible to expand this report to include all of the library's subscription databases. The chart below shows the number of sessions each month as well as the total number of sessions this year for each listed database.

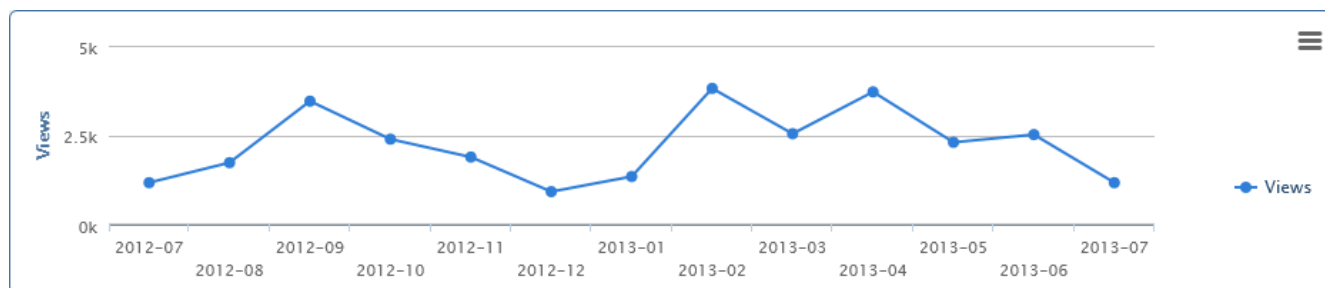

It should be noted that Sanborn Maps was cancelled, effective 7/1/2012.
